TURNER IS WORKING ON THE MUDDLE

for the Civil Service Law Which May be Declared Invalid

NO SPECIAL SESSION WILL BE CALLED HOWEVER

REGARDLESS OF DECISION

of the Supreme Court Which Tribunal May Be Called Upon By the Attorney General to Interpret Whether a Clerical Error Should Nullify the Entire Intent of Measure.

(ASSOCIATED PRESS TELEGRAM)
Columbus, O., July 1.—Attorney-General Turner and his entire staff were at work today trying to determine the status of the Barnes-Moore civil service bill, which many believe is nullified by an error in the printed copy, signed by Governor Willis. An opinion probably will be rendered tomorrow. The opinion expressed by most members of the attorney-general's staff was that the clerical error would not make the bill act invalid.

Even if the supreme court should declare the measure void, however, was said at the governor's office, a special session of the assembly could be called to remedy the defect. Attorney-General Turner discovered today that the house and senate had passed the same act without error. Yesterday it was reported that the clerical error in transcribing crept into the copy of the bill as acted on by the senate and that, therefore, the two houses passed technically different measures. Although he did not clarify the muddled situation entirely, it went far toward simplifying the question, it was said. As stated by the attorney-general's department after exhaustive study of legislative records today, the only clerical copy of the bill in which the words, "boards and commissions," for the word, "bureaus," occurred is signed by the presiding officers of the two houses and the governor. This made it seem possible, in the opinion of a number of state's lawyers, that a court would hold since the will of the legislature had been made clear, the error in transcription would not be allowed to nullify either the entire act or even the section in which it occurred.

Attorney-General Turner said he had not decided whether he would institute a suit in the supreme court to test the validity of the civil service law. It was said in administration circles, however, that if such a suit is found necessary, the attorney-general will file it instead of leaving it to "outside parties."

Leaders in the movement of public employees to support a referendum on the civil service law said today their plans have been disarranged by refusal of the executive committee of the Ohio civil service association yesterday to call a referendum. Many declared they believed no referendum would be instituted.

Announcement of the attorney-general that he had instituted an investigation to determine who violated the lobby law by failing to file reports of their expenses, resulted in receipt of a number of belated reports by the secretary of state today. Although several days past due they were accepted by the secretary of state.

Among these were the following: Frank B. Ricknell, Cleveland, secretary of the Cleveland Association of Building Owners and Managers, \$219 expenditures; Wm. C. Butterworth, Newark, spent \$135 for the 2½-cent fare law; J. H. Orgill, Cleveland, received \$180 salary from the Ohio Oil and Gas Owners' Association; and \$125 from the National Fire Insurance company, Cleveland; L. C. Smith, Columbus, received \$1118 from the Brotherhood of Railway Conductors.

Attorney-General Turner today upheld the action of Governor Willis in vetoing one cottage for the Columbus State hospital, and one cottage for the institution of Feeble Minded, to cost \$70,000 each, in the general appropriation bill. State Auditor Donahy had requested an opinion on whether he could honor legally veto action on only part of an item. The original bill provided two cottages for each institution.

BISHOP QUIGLEY'S DEATH IMMINENT
(ASSOCIATED PRESS TELEGRAM)
Rochester, N. Y., July 1.—James Edward Quigley, Catholic archbishop of Chicago, suffered another stroke of paralysis shortly before 12 o'clock today and his death is imminent. A respiratory pneumonia of both lungs has set in. It is not believed he will survive many hours.

GENERAL VICTORIANO HUERTA

Conspiracy Case Against Huerta and Others Was Postponed Until July 12

(ASSOCIATED PRESS TELEGRAM)
El Paso, Tex., July 1.—The case against Victoriano Huerta, Pascual Orozco and four others, charged with conspiracy to violate the United States neutrality laws, was postponed today to July 12. The defendants were continued under the same bonds.

The postponement was granted on request of attorneys for the prosecution. R. E. Crawford, assistant United States district attorney stated that the government had been unable to collect and arrange all its evidence or to bring important witnesses into court.

(ASSOCIATED PRESS TELEGRAM)
El Paso, Tex., July 1.—Victoriano Huerta, former president of Mexico today before George B. Oliver, United States commissioner, faced charges of conspiring to launch a new revolutionary movement in Mexico, thereby violating American neutrality. Accused with him were two former Mexican federal generals and three Mexican residents of El Paso. The arraignment marks the culmination of an investigation conducted by federal officials in New York and Washington since General Huerta established his residence on Long Island in April, his journey across the country and his detention by local government officers Sunday, when he alighted from a train at Newman, N. M.

Those accused, together with the bond under which they were held are:

General Victoriano Huerta \$15,000 bond.
General Pascual Orozco, \$7,000 bond.
General Marcelo Caraveo, \$5,000 bond.
Jose Zozaya, El Paso, \$7,500 bond.
Ike Alderete, El Paso, \$4,000 bond.
Frank Alderete, El Paso, \$4,000 bond.

For weeks government officials here have been cognizant of activity among refugees on this side of the border. Supplies of machine guns, rifles and ammunition said to have

been assembled in connection with the new movement had been located in El Paso and kept under surveillance.

Speculation has been rife along the border as to what affect the act of Huerta and his five co-defendants would have on the new revolutionary movement. Since his detention, it has been intimated in some quarters that the plans contemplated that Huerta should maintain the role of adviser, the actual direction of field operations being left to others.

Others have contended that the success of any movement in Mexico depends on the personality of the leader and his active participation, arguing, therefore any movement organized around Huerta probably would fail, unless Huerta took the field. Since Huerta's detention Sunday, continued activity has been noted in Cientifico circles here and some observers express the belief that the present plan is to attempt to launch the movement even should Huerta be held over to the federal grand jury.

PETITION FILED FOR AN ELECTION ON PROHIBITION

(ASSOCIATED PRESS TELEGRAM)
Columbus, July 1.—Petitions bearing 135,000 signatures, twice as many as needed, making a pile nearly five feet high, were filed with Secretary of State Hilobrant today, to initiate the state-wide prohibition amendment. Worthington Kantzman and other officers of the organization, brought the petition to the state house and turned them over to the secretary of state's department. They had been collected here and scanned carefully by clerks in the employ of the Anti-Saloon league, to detect possible errors. Eighty-one counties were represented.

FOREIGNERS IN PERIL IN MEXICO CITY

Conditions in Capital Are Growing More Chaotic As Days Pass

BATTLING ARMIES IN SUBURBS INCREASE THE DANGER

HUERTA IS UNDER BOND

Former Mexican Dictator and Five Others Face Charge of Conspiracy to Launch a New Revolution in That Country, Thereby Violating Neutrality of United States.

(ASSOCIATED PRESS TELEGRAM)
Washington, July 1.—Conditions in Mexico City, described as growing more chaotic, loomed largest today in the official view of the complex Mexican situation.

The situation in the Mexican capital, made more dangerous for foreigners by the battling armies in the suburbs, is causing Washington officials more worry just now than any other phase of conditions in the southern republic. Mexico's newest revolution, said to have been nipped in the bud by the arrest at the border of General Huerta and others and new peace moves even were overshadowed by conditions at the capital.

Latest reports from Mexico City which came by way of courier, to Vera Cruz and cable to the state department several days later said the conditions bordering on anarchy prevailed there with unchecked mobs rioting and looting stores.

With the Mexican capital cut off from telegraphic communication with the outside world, official anxiety increased concerning the safety of foreigners there. The advisers made no mention, however, of foreigners having been harmed.

The situation was laid before Secretary Lansing upon his return today. President Wilson at Cornish, N. H., also has been advised.

(ASSOCIATED PRESS TELEGRAM)
Albany, N. Y., July 1.—Governor Whitman today granted Charles Becker, the former New York police lieutenant, under sentence of death, a reprieve until July 26.

The governor said that he would take no further action in the case than the granting of the reprieve. This means that if the United States supreme court does not interfere, Becker will have to die.

FEARS HARRY THAW WILL HARM HER

Evelyn Nesbit Thaw and Her Young Son, Russell

Mrs. Harry Thaw, wife of the man who is again making a strong legal effort to escape incarceration in the Matteawan Asylum as a lunatic, has been found hiding in a bungalow in the far northern part of New York State, while the trial of her husband is going on in New York City. This photograph is the latest, taken of her and her young son, Russell, who is with her in her seclusion.

The deputy attorney general of New York, who is trying the case against Thaw, made efforts to find the wife that he might place her on the stand as a witness against her husband. However, newspapermen found her long before the state's officials ever learned where she was. They discovered she is so near the Canadian border that she can easily cross and escape a process server, should she desire to do so.

Mrs. Thaw is in fear of her husband. She believes he will do her

bodily harm should he be liberated. She says all his effort will be directed to have her leave the stage, and says her life will "be a hell of earth if he gets out."

Evelyn Thaw Refuses To Testify In Husband's Case; Says Ordeal Might Kill Her

(ASSOCIATED PRESS TELEGRAM)
Malone, N. Y., July 1.—Evelyn Nesbit Thaw has refused to honor the subpoena served on her yesterday summoning her to New York to testify at the jury proceedings to determine the sanity of her husband, Harry K. Thaw.

Mrs. Thaw, it became known today, told William J. McGuire, the state's process server, that she was in poor health and feared for her life, should she be compelled to undergo the ordeal on the witness stand to which she thought she would be subjected in cross examination by Thaw's counsel.

She said that she would furnish a doctor's certificate if required to do so by the court.

STATE'S ATTORNEY MADE NO COMMENT ON EVELYN'S STAND.

(ASSOCIATED PRESS TELEGRAM)
New York, July 1.—Deputy Attorney General Becker, state attorney in the Thaw case, when informed that Evelyn Nesbit Thaw had refused to come to New York, declined to comment on her action. It was understood that whatever action is taken in the matter will be determined by the court.

Transcripts of the testimony given in Harry K. Thaw's two trials for killing Stanford White, to prove that

he was insane, were in the possession of state's attorneys today and liberal extracts were read. Reading the evidence given by Mrs. Evelyn Thaw, his mother in the second trial had not been concluded when the court adjourned yesterday and was continued today. Mrs. Thaw, in the portions of her story read to the jury, told of her son's early life, his eccentric actions just prior to the killing of White and of the insanity taint which affected some of Thaw's relatives. It was understood that this would be followed by the reading of other testimony given in the two murder trials to show Thaw's alleged irrationality.

Counsel for the state seemed prepared to present to the court all the essential facts of Thaw's career in an effort to prove that he is insane.

The summoning of Mrs. Evelyn Nesbit Thaw as a witness for the state was regarded as indication that her story of the incidents leading up to the killing was to be reviewed. She will probably be called upon to testify next week.

FRENCH WILL TRY ATTACK NEAR ARRAS

On Account of Enormous Waste of Ammunition in Bombardment

WHICH HAS BEEN GOING ON FOR TWO WEEKS

ALLIES ON THE PENINSULA

Report Gains at Southern End and An Approach Upon Three Sides—Warsaw Battered—More and More German Drive—Decisive Result in Week

(ASSOCIATED PRESS TELEGRAM)
London, July 1.—While the Anglo-German armies continue to push the Russians back over the Galician border in to their own territory, rumors are rife in London of contemplated offensives by the entente allies. The French are credited with the intention of making a formidable attack on account of the enormous expenditure of artillery ammunition to the north of Arras, where a persistent bombardment has been kept up for the last fortnight; while the Anglo-French forces on the Gallipoli peninsula are said to be on the point of making a supreme effort to capture the massive hill of Achi of the Dardanelles.

The recent gains claimed by the British and French on the southern end of the peninsula are considered important because they indicate an approach to the hill on three sides. On the eastern front, enemy changes leaves Warsaw, the capital of Poland, more open to attack, which the Germans and Austrians evidently are making.

Along the northern line the Anglo-Germans appear to be expecting the greatest success, for the signs seem to be making a still fight along the Dnieper, while treating generally between the Vistula and Bug rivers toward Lublin. In the west, both sides have tacked in the Argentine forests, beyond the Meuse hills without a result. The fighting of the fortnight has been without permanent result, except in the Vosges, where the French have consolidated substantial gains. From Vienna, Italians are reported to be showing renewed energy along the Isère river, they having brought up men and guns, but no decisive action is reported.

BRITISH LIST OF CASUALTIES IS GIVEN OUT TODAY

(ASSOCIATED PRESS TELEGRAM)
London, July 1.—Premier Asquith announced, in the house of commons this afternoon that the British naval and military losses in killed, wounded and missing in the operation against the Dardanelles up to May 31, aggregated 38,635 officers and men.

The figures show in the killed, wounded and missing by officers and men follow:

Officers killed 495; wounded 134; missing 92.
Men killed 6,972; wounded 542; missing 6,445.
Total killed 7,467; wounded 676; missing 6,537.

FRENCH DENY USING SHELLS MADE IN U. S.

(ASSOCIATED PRESS TELEGRAM)
Paris, July 1.—With reference to an interview published in the United States, in which Prince Rupprecht of Bavaria was quoted as saying that fifty per cent of the shells used by the French were manufactured in the United States, the ministry of war made to The Associated Press the following official statement:

"Neither now nor at any time since the beginning of the war has the French artillery made use of any shells whatsoever manufactured in the United States."

BRITISH BARK IS TROPEDED BY SUBMARINE

(ASSOCIATED PRESS TELEGRAM)
London, July 1.—The British bark, Thetisbank, which was carrying a cargo of wheat to India, was torpedoed by a German submarine yesterday in the North Atlantic, off the coast of Ireland. The bark was carrying 4,000 tons of wheat. The submarine was a U-boat, and was seen by the crew of the bark. The bark was damaged, but the crew was rescued. The submarine was not seen again.

No Complications With Germany Probable Over Sinking of Armenian and Loss of American Lives; Report Vessel Was Warned and Resisted Capture

(ASSOCIATED PRESS TELEGRAM)
Washington, July 1.—Secretary Lansing announced today that until more complete reports had been received from Ambassador Page at London, on the torpedoing of the British liner Armenian, in which several Americans lost their lives Monday, the United States would take no action.

Latest news dispatches from Avonmouth detailing how the Armenian made efforts to escape after being ordered to stop, caused officials to believe the sinking of the vessel was accomplished in accordance with international law, and that the United States might have no reason to take up the subject with Germany, except to verify through the admiralty at Berlin the details of the Armenian's reported resistance.

Under the rules of international law, it was pointed out that the Armenian, which flew the British flag, as well as any neutral vessel, could

be sunk for refusing to obey a warning to halt and submit to visit and search or capture. Americans aboard such a ship lose protection of their government when the vessel offers resistance.

Ambassador Page reported that the Armenian was engaged in "admiralty business," but the question of how far the vessel was under the control of the British government, by charter or otherwise, seemed to be overshadowed in the minds of officials here, by the reported resistance to capture.

There was a relaxation of tension in official quarters by the news that the Armenian apparently was resisted capture, for what seemed to loom up as a possible complication in the pending negotiations over submarine warfare with Germany appeared to be removed.

The report that the German commander had come to the surface and megaphoned the Armenian was re-

garded by many officials as indicating an intention to visit and search even enemy ships, a principle for which the United States has been contending. It was suggested in some quarters that the German submarine commanders now may have new orders requiring them not to torpedo any ships without warning. No cases have been reported of attack without warning in the last few weeks. The law on the question of charter is not clear, but officials indicated it would not be a violation of American neutrality laws for an unarmed transport, carrying a cargo of munitions or supplies for a belligerent government to sail from the United States, and that it never had been definitely determined whether belligerent cruisers on encountering such a vessel were to treat it as a ship of war, or as a defenseless merchantman.

Such news as had been received did not indicate how many Americans had

been lost or the circumstances under which the vessel had been sunk. Until detailed information on the latter point is available, Secretary Lansing, who returned today from Amherst, Mass., was not expected to indicate the course of the state department.

President Wilson, who is at Cornish, N. H., has been advised of the situation.

In many quarters the sinking of the vessel was regarded as likely to add further complications to the correspondence pending between Germany and the United States over the question of submarine warfare. Officials attached most importance to the actions of the Armenian at the time she was encountered by the German submarine. If the vessel, attempting to escape, failed to heed a warning shot from the submarine, not only the vessel but the crew would be subject to the risks of a subsequent attack.

The position of the United States has been the citizens engaged in the

carrying of contraband who are on board ships that resist capture or attempt to run a blockade are not entitled to the protection of the American government.

One cablegram to the department spoke of a "second warning" having been fired at the wireless house of the Armenian, which gave rise to the impression that the first shot may have been fired in warning. On the other hand, if the information which is expected to be received through American consular officers who will talk with the survivors, proves that the Armenian made no effort to resist capture and without removing the members of the crew to a place of safety, officials thought the case would be almost parallel with that of the Lusitania.

The United States has contended for the principle that an unarmed and unresisting ship must not be destroyed until passengers and crew have been rescued.

C. E. Convention Will Close Its Sessions Tonight After Successful 3-Days' Meeting

Thursday began the last day's sessions of the Christian Endeavor Convention of the Southeastern Ohio District of the United Brethren church.

The meetings opened at 7:45 o'clock with quiet hour conducted by Miss Ida Grindell of Westerville and the theme was "The Word of God."

The sectional school of methods consumed an hour and was held in the East Main Street school building. The rural endeavor institute which proves practical to all the societies of the rural districts was conducted by the president, Mr. E. H. Dalley.

Following a song service the president introduced Rev. L. A. McIntyre, pastor of the Mills Memorial church at Lancaster, O. Rev. Mr. McIntyre spoke on "The Temple of God," and said in introduction that he wanted to give the religious aspect which attaches itself to physical culture.

"Man is divided into three parts: Body, mind and spirit, and I want to call your attention this morning to the body. How much more service would a young man or woman be able to give to God, if they were perfect physically. Over 1,150,000 are on sick beds unnecessarily, and 650,000 die unnecessarily, through ignorance alone. I would have physical training in every Christian society."

Connection with my discourse temple of God or in other words, I want to talk of things first its special connection with God; God being in us and working through us. The body is the Holy of Holies. The reason we are so unfit spiritually is because we are unfit physically."

The second division is the consecration of the body to the service of God.

"The third thing is the manifestation of God in the body."

"There is no doubt in my mind that the average church member, young and old, mars the temple, and because the temple or the body is unclean, God does not want to live in it. More people die from improper eating than from alcoholic liquors. We are a food-drunk nation," says the scientist Edison.

Dr. J. S. Kendall of Dayton was again on the program for an address, and on Thursday spoke, "How to Make Effective Our New Financial Plan." The plan is to arrange for the necessary expenses of the church, what is needed is a business system, for collecting the money for these, and the budget system has been arranged, and the budget is for \$1600 for the running expenses of the church.

"We will do away with our idea for the Sunday school department of the church. It will be run on the budget system as the church."

The benevolence feature of the convention has been very slipshod, and effort is being made to rectify it."

Wednesday Afternoon.

The convention was called to order at 1:30 o'clock, and the first part was given over to the junior rally, which was conducted by Miss Estella Montgomery, branch junior superintendent.

The program opened with a piano duet followed by a scriptural reading by Miss Montgomery.

Carl Hoenstein, a junior, gave a talk entitled, "A Trip Through China," which was descriptive of Chinese customs, both as to religion and mode of living.

The junior song was given by the class and was followed by a vocal solo by Helen Shepard of Columbus.

Miss Montgomery spoke on "Christian Endeavor and Its Relation to the Junior," and said that it had been

remarked that even the minister often lost sight of the junior, but this is not generally true, and the church without its junior workers would be like the nation without its schools.

To preserve the church the child should be trained in church-work, for every child is an opportunity for God.

"The Religion of China" was interestingly discussed by Harry Swepston, who told of the many religions and of the quaint superstitions which prevail, and of some of the difficulties the modern missionary is facing. Margaret White, daughter of Rev. M. H. White, a junior from the Tenth Street U. B. church, gave a recitation, "The Words of a Dying Child."

The report of the junior societies was given, the number of members being reported with the financial report.

The awarding of banners was made. St. Clair avenue, Columbus, got the banner, having 940 points.

The banner is awarded each year, and the Columbus juniors captured it this year. Small junior pennants were awarded to those who competed for the large banner.

The junior rally concluded and Mr. Dalley, who was presiding introduced Dr. J. G. Huber, pastor of First U. B. church of Dayton, and also president of the board of control. Dr. Huber's address was prefatory to the decision and consecration service. This service is for announcement of the intention of devoting the life to definite Christian service.

Rev. Mr. Huber told the scriptural story of the talents. "The true view of human life is that we come from God and we are going back to God. The majority of people are those of one talent and it is to that majority that I am talking. Life is determined by small things. Insignificant circumstances govern the most of our lives."

Dr. Huber recited many instances where small circumstances became great factors in governing life.

"My young people, will you give just that one talent? Will you donate that one talent you possess to Jesus Christ?"

The consecration service is for the purpose of consecrating of the supplicant to ministry, to missionary work, or to more definite work in some particular phase of local church work.

Over twenty-five young people responded to the invitation and will devote their efforts to some special branch of the church work.

Following the consecration service the Christian Endeavorers as a body, through Mr. Fred Powell of Circleville, presented the president, Mr. E. H. Dalley, with a gold watch, which they chose to bestow upon him as a token of the appreciation of his excellent work as president, and Mr. Dalley very appropriately thanked the assembly.

The report of the secretary, Miss Bowers of Westerville, was made, showing the membership in the various churches of the district. The East Main Street U. B. church was shown to possess the greatest membership—530. The largest society of any in the whole denomination.

Miss Ida Grindell, secretary of literature, made her report, and G. T. Rossetol, missionary secretary, also reported from his department.

Mr. Stacey Conrad, purity secretary, made his report.

Rev. E. H. Harris, treasurer, made his report, which concluded the work of the departments.

The concluding work of the afternoon was given over to the election of officers and the balloting resulted as follows:

President—Fred A. Powell of Circleville.

Vice President—H. C. Elliott of Westerville.

Junior Superintendent—Miss Estella Montgomery, Columbus (re-elected).

Treasurer—Rev. E. E. Harris, Crooksville (re-elected).

Corresponding Secretary—Miss Inez Bowers, Westerville.

Recording Secretary—Miss Ada Swartz, McArthur, O.

Efficiency Secretary—Miss Bessie Wagner, Columbus (re-elected).

Literature Secretary—Miss Ida Grindell, Westerville (re-elected).

Missionary Secretary—G. T. Rossetol, Westerville (re-elected).

Educational Secretary—C. A. Hahn, Westerville (re-elected).

Stewardship Secretary—Rev. M. R. White, Tenth Street church, Newark.

Citizenship Secretary—Rev. P. E. Wright, Asheville.

Purity Secretary—Stacy Conrad, Newark.

Executive Committee—E. H. Dalley of Westerville, and Rev. A. B. Cox of the East Main Street church, Newark.

Wednesday Night.

On Wednesday evening services were held at both the East Main Street and Tenth Street United Brethren churches, by the Southeast Conference of Christian Endeavorers, and the theme of the evening was, "Education." Much of the program was given over to the Otterbein College students' Otterbein being the United Brethren college.

Special music was given by the quartet and by the soloist, Miss Verda Miles, who sang, "The Day Is Ended."

Dr. John G. Huber of Dayton, and Rev. J. O. Emrick of Hillsboro, alternated at the churches, each delivering two addresses during the evening.

Dr. Huber spoke on "Education," and told how many great men, had never had the opportunity for a college or high school education, but who had succeeded by observation and by association with men. Mr. Huber said that to religion, edu-

cation was one of the essential factors of today, and that a smaller college was better than a larger one, and then gave his reasons for this stand. He gave a general description of Otterbein, the U. B. college, and told of the work being accomplished there.

At the conclusion of Mr. Huber's address the program was turned over to the Otterbein students, who gave a number of short talks, interspersed with college songs and yells.

Rev. J. O. Emrick of Hillsboro, chose for his subject, "The Importance of Education," and told how the trained men were the ones who were demanded in the business of today, and how the college man is the man who gets to the front. The man with a college education is the one who is demanded by the churches, and the time is past when a minister may devote six days to some commercial occupation and one to the expounding of religious principles. Perfection is the goal now sought by all men and the Bible school and education must never be divorced. The physical, mental and spiritual man must be developed, and this is best done in the college.

Rev. Emrick said, "Make your opportunity, and then grasp it." The services ended with the singing of the Otterbein marching song by the students, and they were forced to repeat it three times.

**IMPOSSIBLE TO
SAVE WINDOWS
OF CATHEDRAL**

(ASSOCIATED PRESS TELEGRAM)

Paris, June 30.—A Commission appointed by the British foreign office to visit Reims and inspect the famous cathedral, which has been damaged seriously by German artillery fire, arrived Sunday morning. Just after German shells had struck the building. The party included Owen Johnson, Arnold Bennett, Walter Hale and G. H. Mair. They picked up pieces of shells which had glanced off the walls and roofs. All agreed that neither French troops nor guns were anywhere near the cathedral.

It has been impossible to save the priceless stained glass windows in the cathedral because the erection of scaffolding which would be necessary to take them down, the French say, might give the Germans the idea that the cathedral was being used for observation purposes.

IN DAYTIME; GETS
LOTS OF PLUNDER**

Sometime during Wednesday afternoon the home of Karl Reinbold, East Main street, near the Children's Home, was entered by burglars and a quantity of clothing and jewelry taken. The loss is estimated at considerable more than \$100. No clue was left by which to identify the thief.

Mrs. Reinbold left the house shortly after dinner and discovered the burglary after her return later in the afternoon.

The house was completely ransacked, dresser drawers being emptied of their contents, wardrobes stripped of the clothing, which was tossed about on the floor of the bedrooms.

An investigation revealed that the thief got away with a watchbox with a Masonic pendant, a Masonic pin, a watch, bracelet, ring set with a bloodstone, necklace and locket, lavalier, a fine suit of clothes belonging to Mr. Reinbold, a silk shirt, a box of silk stockings, and numerous other articles.

Before his departure the burglar lunched sumptuously upon the contents of the icebox and departed, leaving the kitchen door as well as the screen door wide open.

Entrance was gained by cutting the screen on a basement window, and springing the lock on the window. The window was carefully locked again. The thief made his way into the upstairs portion of the house through the kitchen.

Mrs. Reinbold saw two young men on the corner when she left and after passing them they walked past the Reinbold home. A neighbor saw a man with a large bundle under his arm leave the Reinbold yard about the time the burglary must have been committed.

An investigation was made by the police.

BURGLAR WORKS IN DAYTIME; GETS LOTS OF PLUNDER

Sometime during Wednesday afternoon the home of Karl Reinbold, East Main street, near the Children's Home, was entered by burglars and a quantity of clothing and jewelry taken. The loss is estimated at considerable more than \$100. No clue was left by which to identify the thief.

Mrs. Reinbold left the house shortly after dinner and discovered the burglary after her return later in the afternoon.

The house was completely ransacked, dresser drawers being emptied of their contents, wardrobes stripped of the clothing, which was tossed about on the floor of the bedrooms.

An investigation revealed that the thief got away with a watchbox with a Masonic pendant, a Masonic pin, a watch, bracelet, ring set with a bloodstone, necklace and locket, lavalier, a fine suit of clothes belonging to Mr. Reinbold, a silk shirt, a box of silk stockings, and numerous other articles.

Before his departure the burglar lunched sumptuously upon the contents of the icebox and departed, leaving the kitchen door as well as the screen door wide open.

Entrance was gained by cutting the screen on a basement window, and springing the lock on the window. The window was carefully locked again. The thief made his way into the upstairs portion of the house through the kitchen.

Mrs. Reinbold saw two young men on the corner when she left and after passing them they walked past the Reinbold home. A neighbor saw a man with a large bundle under his arm leave the Reinbold yard about the time the burglary must have been committed.

An investigation was made by the police.

300 KILLED IN A TRAIN WRECK ON MEXICAN R. R.

(ASSOCIATED PRESS TELEGRAM)

Laredo, Texas, July 1.—Three hundred Carranza soldiers and their wives and children were killed and several hundred injured in a wreck of a military train near Monte Morelos, between Tampico and Monterey, according to an American who arrived here today from the interior. The accident took place ten days ago, he said.

HART'S SUPERB PITCHING WON FROM AKRON

ALLOWED HOMELESS RUBBER-NECKS BUT FOUR HITS AND FANNED ELEVEN.

Newark Attacked Early and Secured Lead Which Was Maintained—Flashy Work by Fielders.

Newark and Akron, both without any one to pay their salaries or furnish meal tickets, staged a regular ball game at Wehrle Park Wednesday afternoon, Newark winning in a handy fashion 5 to 1.

The half hundred fans who remained loyal to the old sport, witnessed some mighty clever pitching on the part of Hart and McKee and some real fielding on the part of Newark and Akron players.

Hart, pitching better than he ever has done since he joined the Newark club, allowed the Akron gang but four measly hits. Two of these might have been scored as errors, though the chances were very difficult. On the other hand, Newark got but five hits and had these not been bunched with misplays by Akron or with the passes issued by McKee, the score might have been much closer.

Five distinct fielding stunts on the part of Newark men, stood out prominently in the afternoon's entertainment. Judge opened the afternoon by taking a difficult drive from Byatt's bat the first man up, while running towards left field and with his gloved hand turned "wrong side out." Hart starred on the next play when a vicious drive from Patton's bat went directly at Hart's head. He copped that one.

In the fourth inning Roubush went back after Byatt's Texas leaguer and made an easy out of a very difficult chance. In the fifth Roubush scooped up a hard hit grounder from Mundy's stick, which looked good for a hit. The collegian got the ball on the dead run and whipped it to first retiring the runner. There Long in left field made a difficult run backward to get under Talbot's bid for a two base hit. He stabbed it with his gloved hand. The afternoon's spectacular plays were climaxed by Roubush's sensational stop of Jaekel's grounder for the second out of the ninth.

For Akron, fielding of Glennon in center and Byatt in left and the work of Catcher Talbot were fielding features.

Newark took advantage of McKee's wildness in the early innings to take a lead which Akron found impossible to overcome. Long, first up, was hit on the arm with a pitched ball. Wratten sacrificed. Roubush walked, and Pearce fanned. Reese singled to right field, scoring Long and Linne's (throw to the plate to stop Long, went wild, allowing Roubush to cross the plate. Reese went to third on the bad throw and scored a moment later on Judge's neat drive to left field. Strawn lifted to Jaekel.

With two out in the third, Newark made another assault. Judge getting a life on Pearce's throw which pulled Mundy from the bag. Strawn weighed in with a nasty hit along the right foul line good for two bases. Blanchard's bid for a hit was a high foul which was copped by Mundy.

In the fifth, Roubush singled as a starter. Pearce was out on a fly to Byatt. Reese was hit by a McKee bender and was retired at second when Patton tossed Judge's grounder to Jaekel. The latter made a bum heave to Mundy and Judge was safe, while Roubush raced home. Judge going to second. At the crack of Strawn's bat Judge was off and Strawn's effort proved to be a safe hit to left which scored Judge. Blanchard ended the frame with a strikeout.

The sixth inning saw Akron's long run cross the plate. McKee fanned, and Linne walked. Byatt singled, a slow roller towards first pulling Reese away, and not giving Hart time to get across to the bag. Patton hit to Hart who tossed out Linne at third. Jaekel singled, scoring Byatt. Mundy fanned.

McKee opened the eighth with a single and Linne fanned. Strawn took in Byatt's short fly to center and whipped the ball quickly to first catching McKee flatfooted, the double play ended the inning.

CITY NEWSPAPERS COMMENT ON BUCKEYE LEAGUE

Columbus newspapers have the following comments to offer on the most recent developments in the Buckeye League:

There was nothing unexpected in the news yesterday that Al Lawlor, organizer of the Buckeye League, had decided that he is better off back East. Fortunately for the cities involved and which some time may want a home-owned league under protection, the Buckeye was not working under the rules of the National Association. Secretary Farrell of the N. A. board will not be asked by any of the players to secure a settlement of their accounts.—Ohio State Journal.

The collapse of the Buckeye league is no surprise. The league started on wrong principles and was doomed to failure from the start. Already three of the managers of the league are reported to have left for parts unknown, leaving salaries and other bills unpaid. Manager Wrath of the Newark club is the latest to throw up the sponge. Such leagues are seldom money-makers and must be kept alive by civic pride. In the case of the Buckeye league five of the six team backers were out-of-town men, who aren't in baseball merely for the sport.—Columbus Citizen.

K. OF C. TO RAID UTICA MONDAY; ATHLETICS SUNDAY

McDermott Sets a New Record for 200-Yard Swimmers

Indianapolis, July 1.—Another Central Association A. A. U. swimming record fell yesterday at the 1915 meet in Broad Ripple Park pool.

M. McDermott, Illinois Athletic Club, Chicago, set a new mark of 2:53 1-5 in the 200-yard breast stroke. He clipped 3-5 of a second off the mark made by himself at Broad Ripple in 1914.

BUCKEYE BAND GIVES CONCERT THIS EVENING

The Buckeye band boys will give a free open air concert this evening in front of the Trust building, providing they can find space there for their chairs. Concerts cannot be given on the court house steps as the spectators trample down the grass in the park.

The concert this evening will probably consist of ten selections, a great many of them new ones, and the concert will be very enjoyable. Come out and hear the band boys render classic and popular selections. You will enjoy a splendid concert by expert musicians.

The band boys in the near future expect to give a berry and ice cream festival on the lawn in front of the Sherwood Hotel. The net receipts derived from that source will be used in purchasing new music and paying the running expenses of the organization. It is to be hoped that it will be liberally patronized.

DEATH SENTENCE IS IMPOSED ON WIFE MURDERER

(ASSOCIATED PRESS TELEGRAM)

London, July 1.—A verdict of guilty was brought in by the jury today in the case of George Joseph Smith, who was charged with the murder of three of his wives. It had been alleged by the Crown that Smith had killed his wives while they were in their baths and had collected insurance money on their lives.

Smith was sentenced to death. "You will hang me before you're done, my lord," was Smith's excited outburst while Justice Scrutton was summing up the case. The prisoner quickly followed this with:

"You cannot hang me for murder; I've done no murder. This is a disgrace to a Christian country."

Smith's first explosive utterance voiced the general impression in the crowded courtroom as Justice Scrutton presented the court's estimate of facts for and against the prisoner.

Y. W. C. A. GIRLS SUMMER CAMP OPENED TODAY

The Y. W. C. A. summer camp which is located at the White farm, west of the city, opened today and will remain open until the 12th of August.

The camp is in an ideal location, and the spacious and attractive home makes a splendid club house. The guests at the camp sleep in tents, and meals are served. The fee is unusually small, it costing 10 cents to sleep there, 10 cents for breakfast, and 15 cents for luncheon and dinner.

All kind of out door games are arranged and splendid opportunities are offered for bathing and boating. The camp for the present will be in charge of the secretary, Miss Katherine Childs and Miss Helen Tucker.

BUCKLEY SAYS LEAGUE IS TO REMAIN INTACT

Findlay, July 1.—Findlay baseball promoters again have put the Buckeye League on its feet. A director's meeting will be held here in a day or two to reorganize. C. S. Buckley, president of the Findlay club, returned this evening from a tour of the circuit and declared the clubs were never in better condition. H. O. Dorsey of Findlay, secretary of the league has placed a franchise with Pliska. A six team league in western Ohio will be used after July 8. Springfield and probably Kenton will enter the league after that date. The Akron team will be taken over by one of these cities.

Rather Expensive.

The high-water mark in state expenditure of the last two-year period, due to the placing in operation of a number of constitutional amendments voted by the people, will be reached and exceeded by the Willis administration, which came into power on the false issues of a bankrupt treasury, overflow of office buildings outside the statehouse and touted economy. Long since the bankrupt treasury lie disproved itself by the rapidly mounting interest fund, and the Willis administration acknowledged the debt when it appropriated from the Cox surplus for the first six months of operation. Then the overflow office charge joined the ranks of the false when the Willis legislature provided for a new office buildings to be erected on interest drawn by the "deficit." Now the economy proposal is not only going into the same category but it is showing itself to be the purest bunk.

With the starvation of the state institutions and the grandstand plays about reduced salaries, the total of two years of the Willis administration will far exceed the total of two years of the Cox administration, and overreach the greatest biennium sum the state ever before had. The analysis of this statement will be furnished later as the proof is now developing in comparisons of the amounts spent and the specific budget. From this the people will probably learn that economy in administration is that which makes itself known in the amounts collected by tax or otherwise, and that economy talk without such manifestation is rankst rot. The mere reduction of appropriations two years ago did not save anything to the people, but when the special session was called to reduce the tax rate it meant real economy by which the taxpayers were saved two and one-half million dollars and the tax-spenders had just that much less to spend.

Final calculations, just announced, of all appropriations made by the general assembly and approved by Governor Willis show that the money voted for all purposes for the present biennium is \$46,298,509, not including an item of \$800,000 for a state office building to be erected out of a permanent building fund created with the interest received on state money. Of the appropriations, \$36,226,379 will come from the general revenue fund; \$320,365.50, fish and game department; \$6,114,996.92, state highway department; \$268,746, automobile license department, and \$1,368,000, university and sinking fund levy, based on an estimated grand duplicate of \$7,200,000,000. Spirit of the Press

Pursuit of Czar.
It must be remembered that Germany has little interest in pursuing the Russians. Such pursuits lead the Kaiser's armies far into the interior and away from their base of supplies. What they gain in this section of Europe is for the benefit of Austria primarily. No visible prize is in store for the Germans as a result of invading Russia and there is always the danger of meeting Napoleon's fate by getting too far from the fatherland. On the other hand, by taking Calais and Dunkirk Germany would have a submarine base right opposite Great Britain, and England would be constantly threatened with invasion by land forces and with Zeppelin raids.—Buffalo Commercial.

Mounting Up.
The Russian losses are getting to be almost as big as those to which amateur poker players have a habit of fondly referring.—Chicago Herald.

A Long-Felt Want.
A Sabatha man, Doc Tennel reports, is working hard to perfect a device by which an umbrella can be opened only by its owner.—Kansas City Star.

Military Socialism.
Military socialism is the dominating system in Europe today. It has absorbed the Germanic and Austro-Hungarian empires. France has been forced to adopt it. Great Britain is compromising and temporizing, but is quite apparently approaching it. Military socialism is a loose-ly constructed phrase, but it is a fairly descriptive one for a condition of society in which compulsion of the individual for the good of the state begins with prescribing the amount and character of work he shall perform. We here in the United States do not like this any more than the English like it or than the French like it. Military socialism can be conquered only by military socialism and Lloyd George has been telling Great Britain this for two weeks, ever since the feebleness of the British effort against Germany was fully disclosed. When it has been adopted, will it be discarded? That is the question of the war which turns unpleasantly toward the United States.—Chicago Tribune.

An Eastern Proverb.
With Italy fighting Turkey's ally, the departure of the Turkish ambassador from Rome may seem long delayed. The disputed Aegean Islands may have been less of a cause of war than was supposed. There is a hint in diplomatic correspondence that Turkey was fairly content to have Italy occupy them "temporarily," since if she gave them up Greece might take them. There is an eastern proverb about wise enemies and foolish friends.—New York Herald.

Kansas Harvest Hands.
With the return of the wheat harvest season in Kansas the same old divided cry as to harvest hands appears in the newspapers. Labor agencies in Chicago are accused of sending men to the wheat fields by the hundreds only to have them dumped out on the farms jobless and without means of getting back east. One reporter describes the enlistment of fifty men for the Kansas harvest fields who found not only no situations, but no disposition on the part of the irate farmers to provide them with food, and there was extreme suffering among them before they were sent home.

WAGES

OF EMPLOYEES OF ALL INDEPENDENT COKE OVENS WILL BE INCREASED

To a Parity of H. C. Frick Co., The Highest Ever Paid—Other Evidence of Prosperity.

[ASSOCIATED PRESS TELEGRAM]
Connellsville, Pa., July 1.—Practically all the independent coke operators in this region have announced that the wages of employees will be advanced to a parity with the H. C. Frick Coke company, which are the highest ever paid. W. J. Ramsey, largest independent operator in this locality, made an announcement in this effect yesterday and today the Hillman interests, large merchant operators, posted notice of a similar advance. Operators declare that coke prices do not warrant an increase in wages, but say that this step is being taken owing to a shortage in labor. The H. C. Frick Coke company has ordered four hundred additional ovens blown in this week for steel corporation furnaces.

POST-PRANDIAL.

When I've consumed a goodly dinner, I've charity for every sinner upon this mundane stage; I'm full on love for folk of every tribe and station, of every sex and age. This life seems finer, nobler, sweeter, to every earnest, zealous cater, just following a meal, the music of the birds seem grander, when he is full of roasted gander, or porterhouse or teal. The skies seem lovelier and bluer, the girls seem niftier and truer, all things are fair to see; there is no sign of grief or sorrow, and any man can come and borrow two bits or more from me. If there's on earth a sour curmudgeon, who views his fellow men with disgust, he sure he cannot eat, he does not know the joy of snawing a slice of switzerkase or sawing the pickled porker's feet. The sour man is, without a question, knocked out by active digestion, his works won't come across; the pulses of his heart would quicken if he could eat a goose or chicken, or roasted albatross. I dread no ill, I fear no foeman, when I have in my large abdomen eight pounds of sirloin steak, and all the pessimist's bleating must come from fellers to whom eating imparts a stomach ache.

They're really wonderful Waists for \$1--and they cannot be bought in any other store

HERE are pictured the four new styles in Wirthmor Waists that go on sale tomorrow. We cannot too strongly emphasize the statement that these Waists, according to our agreement with the maker, are sold here and here only; they cannot be bought elsewhere in this city. As to their marked superiority over other Waists, at the same or somewhat higher prices, this we believe is now universally recognized. We might seem guilty of an exaggeration, were we to state what, in our opinion, these Waists are really worth; suffice it to say they're worth a lot more than the very modest price at which they're always sold.

Wirthmor Waists are sold here exclusively. Always \$1; always worth more. Charming new styles on sale tomorrow.

There's many a reason why these Welworth Blouses at \$2.00 will meet with a ready sale

THE styles are so very appealing--so very distinctive--and possess such rare charm that they will be liked by all who see them. And more than this is the very unusualness of the values, the method under which they are made and sold permitting us to sell at \$2.00 Blouses that would ordinarily bring a much higher price. It will be real economy to provide yourself with one or more of these pretty Blouses, on sale tomorrow. The Welworth, a better Blouse at \$2.00, is sold here exclusively.

GRANVILLE

HAS MADE MOST ELABORATE PREPARATION FOR A BIG CELEBRATION

Of Fourth of July, Featuring a Parade, Athletic Stunts, Ball Games and a Big Dinner.

[Special to The Advocate] Granville, July 1.--All the committees are working vigorously to make ready every comfort, pleasure and form of entertainment possible for the big celebration of Fourth of July.

The finance committee is having no trouble in getting money and is endeavoring to see every one in this vicinity in order that every body may have a part in the people's celebration of our Nation's Birthday. If you have some suggestion just see L. A. Austin, chairman of the committee and he will be glad to consider your suggestion.

If you haven't contributed just see any member of the finance committee and give what you feel able. It's to be the biggest Fourth of July in the history of Granville.

The parade committee, under the enthusiastic management of Roe Morrow as chairman, is booming, and arranging a finer and bigger parade than last year. A prize of \$10 will be given for the best decorated float in the parade. A \$5 bill will be given for the best decorated automobile and another \$5.00 prize will be given for the best fantastic. Let every body get

busy and boost for a great parade.

Athletic stunts this year are more numerous and varied than last year, but not enough to tire. Fred McColburn, chairman in place of Ralph Morrow, who was out of town, together with his committee is getting a fine collection of prizes for all stunts. A tennis tournament has been arranged, the preliminaries to be played this week and the finals on the 5th of July. Most of the other athletic stunts will take place on Broadway.

The tressed pig, the automobile race and the ball game will be on Beaver Field.

The ball game at 9 a. m. will be played by two teams of boys under 15. Tommy Hite is working up this end of the program. Don't forget to go down and see the game. It will be well worth seeing.

That big dinner is coming on hugely. Under the management of Mrs. A. K. Pollett and excellent committee of helpers the grounds will be in splendid condition and plenty of tables, coffee, sugar, and cream will be provided for all who want to enjoy this very pleasant part of the day's program.

A short but spicy program of speaking has been arranged by the program committee. This part of the celebration will be on the G. F. C. grounds shortly after that big dinner and will begin promptly at 1 p. m. Let us hope the noise-making instruments will be kept quiet during that hour.

The two excellent bands will provide music alternately throughout the day, ending with concerts in the evening.

Following the band concerts the fireworks committee will present the best display of fireworks ever seen in Granville. This will take place on Broadway, near the postoffice.

Everybody boost for the biggest Fourth in the history of Granville. The program for Monday, July 5th, follows:

9:00 a. m.--Ball Game, Beaver Field.

10:00 a. m.--Parade forms on College street.

10:30 a. m.--Big Parade, Broadway.

11:00 a. m.--Tennis finals, Sig and Phi game courts

11:30 a. m.--Big Dinner, G. F. C. grounds

1:00 p. m.--Speaking exercises, G. F. C. grounds

2:00 p. m.--Athletic Stunts, Broadway.

2:15 p. m.--Automobile race, Beaver Field.

3:30 p. m.--Ball game, Granville vs. Kirkersville, Beaver Field

7:00 p. m.--Granville schools Band concert, Broadway, Postoffice.

7:30 p. m.--Granville Band concert, Broadway, postoffice.

8:00 p. m.--Big fire works, Broadway, near Interurban Station.

Wall Street [ASSOCIATED PRESS TELEGRAM] New York, July 1.—Latest foreign developments contributed towards the leanness which characterized today's early trading. Sinking of the steamship Armenian, involving further loss of American lives revived fears of re- newed tension with Germany. Losses of a point or more were recorded in the initial dealings in Canadian Pa- cific, American Smelting and numerous specialties, while leading Union Pa- cific and Copper lost substantial frac- tions. There were extensive offerings of United States Steel at a moderate decline. United States Rubber on which dividend action is to be taken today, opened unchanged, then receded a small fraction and as suddenly rose 2 1/2 points. Dealings in Rubber, Steel, American Can and Miami Copper, the latter at an advance of 2 1/2 points on the in- creased dividend, comprised 50 per cent of the first hour's small business. An announcement that the rubber meeting would not be held until late in the day was followed by a temporary setback in that stock. A ten point advance in General Chemical to 230 was the fea- ture among the inactive specialties. War stocks, Motors and miscellaneous issues were mostly flat. Pressure against Reading relaxed, despite rum- ors of an impending commerce com- mission's decision affecting the coal road. Bonds were heavy.	
Cincinnati Live Stock [ASSOCIATED PRESS TELEGRAM] Cincinnati, July 1.—Hogs: Receipts 1,100; steady. Cattle: Receipts 500; steady; calves higher; 6.00-11.00. Sheep: Receipts 5,000; steady; lambs lower 5.00-10.25.

Toledo Grain [ASSOCIATED PRESS TELEGRAM] Toledo, July 1.—Wheat, cash 1.32; July 1.05 1/2; Sept. 1.01 1/2; Dec. .97 1/2. Corn, cash 71 1/2; July 76 1/2; Sept. 75 1/2; Dec. 66. Oats, cash 52; July 47 1/2; Sept. 39 1/2; Rye, No. 2, 1.07. Cloverseed, prime cash 3.20; October 3.75; Dec. March 3.75. Alfalfa, prime cash August 8.50. Timothy, prime cash 3.22 1/2; Sept. 3.10; October 3.22 1/2.	
Chicago Grain [ASSOCIATED PRESS TELEGRAM] Chicago, July 1.—Definite announce- ment that the steamship Armenian, sunk in Irish admiralty business, had considerable effect today in strengthening the wheat market here. The news was taken by traders as tending to eliminate a disturbing in- fluence. Higher prices at Liverpool counted also against the bears. After opening 1/4% lower to 40 advance, closures were at a moderate 40.

SALARIES

OF MEMBERS OF OHIO LEGISLATURE FOR SECOND YEAR NOW AVAILABLE

Budget Appropriation Bill in Effect, but Doubt Whether Auditor Will Honor Vouchers.

(ASSOCIATED PRESS TELEGRAM)
Columbus, July 1.—Pay of \$1,000 for each member of the legislature for the year 1916 was made available today, when the budget appropriation bill became effective, but doubt exists whether vouchers for these salaries may be honored by the state auditor's department. The question probably will be put up to Attorney General Turner for an opinion. Former Attorney General Morgan ruled that the salaries for the second year of legislators' terms could be paid only in monthly installments of \$83 each. This was the first day of the new fiscal year as created by the budget appropriation bill.

A number of state officials and employees did not come to work today because their pay had been cut off by the legislature. Among these were W. A. McCurdy, state school inspector; Henry G. Williams, normal school inspector; J. C. Davies, assistant chief mining commissioner; James B. Dugan, chief railway inspector, utilities commission, and George J. Nicholson, chief traffic clerk, utilities commission.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

BLIND MAN AND SIX YOUNG WOMEN NOW OHIO LAWYERS

Columbus, July 1.—Francis V. Brady, a blind man, and six young women, were among the class of new attorneys who were admitted to practice in Ohio today. Chief Justice Nichols administered the oath, and only a few of the two hundred and sixty who passed the bar examinations successfully were not present.

Brady appeared happy after taking the oath. He is 28 years old, totally blind, and studied law at Western Reserve university, with the aid of a secretary who read many volumes of law books to him. He graduated last year and expects to take up the practice of law in Cleveland, his home city. He took the bar examination a month ago by dictating his answers to a stenographer furnished by the state.

The women who were sworn in as attorneys today are:

Miss Marie Brueggemann, Miss Esther Gross, Miss Eva Lea Jaffa, Miss Lillian Mary Westroff, Miss Harriet Jean Willis, all of Cleveland, and Miss Eleanor S. Patterson, of Cincinnati.

DIABETES

INCREASING AND ITS VICTIMS ARE PARTICULARLY FROM HIGHER SOCIAL CLASSES.

Chicago Physician Considers It the Most Formidable Disease From Standpoint of Curability.

(ASSOCIATED PRESS TELEGRAM)

Chicago, July 1.—Diabetes is on the increase in the United States, claiming as its victims particularly persons of high social and economic value, according to Dr. Clifford Mitchell, of Chicago, who addressed the American Institute of Homeopathy, here today. Dr. Mitchell said:

"Diabetes is a disease which is increasing steadily in the United States. Mortuary statistics available include the deaths registered up to the year 1914, and from them we learn that between 1901 and 1905 there were only 3,772 registered deaths from this disease, on an average for these six years, but in the year 1913 there were 9,660 deaths. The death rate on the average from 1901 to 1905 was per hundred thousand only 11.5, while that for 1913 was 15.3.

"Moreover, disregarding the mortality, but looking at the disease from the viewpoint of curability, diabetes is certainly more formidable than almost any disease with which we are familiar, inasmuch as neither drugs, diet, climate nor surgical operation can be said to effect a cure, and the average age of death from diabetes is between fifty and fifty-five.

"The number of persons in the United States with latent diabetes is probably larger than we realize. The existence of concealed diabetic tendencies in a considerable number of beings must be recognized. It is time that both press and public woke up to the fact that diabetes in the Twentieth Century killed more than ten thousand persons in the United States alone, and that most of these persons were of high social and economic value was responsible for the statement that 'if you have diabetes, it's a cinch you have brains.'

"Diabetes is indeed a disease of the intelligent class, and we can ill afford to let it prey upon these people so much needed by our nation at all times."

AS IT ADVANCES, AUSTRIAN ARMY FLANKS GERMAN

(ASSOCIATED PRESS TELEGRAM)

London, July 1.—A Renter dispatch from Petrograd says:

"Field Marshal von Mackensen's German army on its northern advance from Galicia is flanked by Austrian forces under Archduke Joseph Ferdinand and General von Boehm-Ermolli. Everywhere in Galicia German and Austrian troops were sandwiched together, the Austrians with easy reach of German support.

"The first objective of the Teutonic advance between the Vistula and the Bug is Inagorod by way of Lublin, Brest and Litovsk. A turning movement also is expected east of Brest and Litovsk by way of Kovel."

Invagorod is the confluence of the Vistula and the Vepz. With Novo Gorgolevsk, Brest and Litovsk, it forms an important triangle of the Russian fortresses in Poland.

GREATEST

CONVENTION EVER HELD BY ANTI-SALOON LEAGUE IS EXPECTED NEXT WEEK

Prominent Speakers Will be Present From Many States at Atlantic City Meeting.

(ASSOCIATED PRESS TELEGRAM)

Atlantic City, N. J., July 1.—Every state in the union will be represented here next week at the sixteenth national convention of the Anti-Saloon League of America which will open on Tuesday, July 6th and continue until Friday, July 9. Arrangements have been made to care for nearly 15,000 delegates, and the managers of the convention expect it to be the greatest ever held by the league.

Under the banner of "A Stainless Flag and a Shameless Nation," the league hopes to adopt plans to further its campaign against the liquor traffic.

Bishop Luther B. Wilson, D. D., I. L. D., New York, is president of the league.

Each local church organization in the United States affiliated with the Anti-Saloon League, each Sunday school, each young people's society, as well as local, village, township, county, city, state or national temperance society or uplift organization is entitled to appoint a delegate and an alternate.

Among those expected to address the four-day convention will hold each morning, afternoon and evening are Governor Carlson of Colorado; Governor Lester, of Washington; United States Senator Sheppard, of Texas; Capt. Richmond P. Hobson, of Alabama; Former Governor Patterson, of Tennessee; United States Senator Jacob H. Gallinger, of New Hampshire; John G. Woolley, the author; Booker T. Washington, the negro educator; Judge Charles A. Pollock, of North Dakota; Fred O. Blue, West Virginia; Congressman Perl D. Becker, of Missouri; Governor Hays, of Arkansas; Former Governor Hodges, of Kansas; Dr. J. H. Kellough, of Battle Creek, Mich., and Former Governor Stubbs, of Kansas.

"The Logic of Prohibition," "The World-Wide War," "The Fight of Prohibition in the Pacific Northwest," "The Negro and the Liquor Question," "What Would Lincoln Do?" "All Tide Sweeping Towards Prohibition," "Prohibition in the South," "The Right of the States to Amend the National Constitution," are topics of some of the addresses.

"The Message of the Convention to the Country at Large" will be delivered by the Rev. P. A. Baker, D. D., of Westerville, O., general superintendent of the league.

The principal meetings of the league will be held on the Million Dollar Pier, and it is expected that many meetings will also be held on the beach in the interest of temperance.

One of the plans on foot is for several thousand of the delegates to go to Washington on the Saturday after the convention and march to the White House for the purpose of presenting an appeal for nation-wide prohibition.

CHARITIES NAMES OLD OFFICERS FOR THE COMING YEAR

The Board of Directors of the Associated Charities met in their office, June 25 for an adjourned business session of the annual meeting. The officers that have served in the organization of the work were re-elected for the ensuing year: E. C. Wright, president; Wm. M. Morgan, vice president; Wilson Hawkins, secretary; Chas. W. Montgomery, treasurer; Wm. E. Hopkins, superintendent.

Plans for Summer.

The superintendent will be absent during July and August to fulfill his contract with the Dunbar Chautauqua Bureau. During this period the office will be open Wednesday mornings only, from 9:00 to 12:00 o'clock in charge of volunteer workers. The different committees will continue their work and special matters of business will be referred to the officers of the Board of Directors.

Mr. Hopkins will return September first and resume the work. A program of next year's activities will be published early in the Autumn. The following report from January 15, to May 31, 1915, we hope, will satisfy the members whose money we have used and will win for us many new members.

To the Board of Directors and Members of the Association:
Your Superintendent presents his report of relief work for the four and one-half months of the Association's existence.

Relief—602 applicants received, \$1148.48. This was devoted chiefly to families with little children, to the aged and the sick.

Relief Work—1546 work cards have been issued. 1503 cards were worked, earning \$1512.20. With both forms of relief we have aided 459 families, 129 resident single persons, and 87 transients. A total of some 2500 individuals from 14 nationalities have received aid. A free Labor Bureau has been conducted in connection with the Y. M. C. A. and the Y. W. C. A. Bureaus to care for this work. Applications have been received for positions in all factories and trades of Newark, and every sort of unskilled labor in town and on the farm.

We wish to record our appreciation of the courteous response and helpful co-operation shown us by the employers to whom we have gone in behalf of the unemployed. It is a pleasure to work with such men.

Total of Direct Relief, \$2660.68. Distribution of Relief was as follows:—Groceries, \$2179.10; Coal and Gas \$215.23; Shoes, \$50.26; Medical and Hospital Supplies and Sundries, \$215.79.

Total, \$2660.68.
Garden Relief—For seeds and plowing, \$105.47; 36 families provided with 71 lots; 2 families assisted in truck farming out of Newark.

Total expenditure in all forms of relief, \$2766.11.

These gardens are planted with the vegetables and potatoes which supply the table in summer and stock the cellar in winter. Large families that entered last winter without any food or money will have from 75 to 100 bushels of potatoes besides tomatoes to can, cabbage, turnips, beets and carrots for the coming winter.

The garden committee is farming a number of lots in addition and will store the crop for the use of other families with no gardens. We invite farmers and gardeners to notify us if they produce a surplus and are willing to donate a portion to us to store up for winter. Potatoes and all staple vegetables, fruit, wheat, rye and corn—anything that can be turned into food or fuel.

Seeds and plants in large quantities have been donated to these gardeners by Kent Bros., George L. Miller, Arthur Powell, M. Schieffer, W. S. Weiant & Son, and a number of grocers and gardeners. Others gave a liberal discount on purchases. A detailed report will be given by the chairman of the garden committee at an early date.

We gratefully acknowledge these gifts and the free use of above eighty lots.

Other Relief—The following donations have been distributed and have brought timely relief to many families and individuals:

Mrs. Frank Agnew, shoes; Mrs. J. C. Bonshire, food; Mrs. W. E. Burton, food; Harry D. Baker, twenty loads of wood; Mrs. C. H. Cole, food and clothing; Mrs. Corkwell, food and clothing; Mrs. Arthur Connell, clothing; Mrs. J. E. Dean, stove; Mrs. H. R. Emery, shoes; E. H. Frame, shoes; Mrs. Mary G. Fulton, wood; Mrs. Henry Fleck, office furniture and clothing; Harry H. Full-

ton, clothing; Mrs. W. D. Gilbert, clothing; Mrs. Cora Gray, clothing and mattress; Mrs. Wilson Hawkins, clothing and mattress; F. C. King, potatoes and groceries; S. G. Handel, shoes; Mrs. W. C. Miller, clothing; E. W. Murphy, shoes; Norris & Webb, wood; Mrs. L. Ogle, clothing; Mrs. C. S. Osborn, shoes; Mrs. E. S. Randolph, shoes; Mrs. L. O. Legge, baby carriage; Mrs. A. L. Rawlings, food; Mrs. Smith, apples; E. P. Simpson, shoes; Mrs. Fred Woodbridge, shoes; Mr. and Mrs. Worthington, clothing; Mrs. E. C. Wright, clothing and office furniture; Mrs. P. S. Wright, clothing; Dixie Coal Co. 100 tickets; coal tickets (202 used); Licking Creamery Co., milk tickets (\$113 used); Mrs. Penwick Ewing, shoes and clothing; Mrs. W. K. Tintson, shoes and clothing; Louis Myers, potatoes; Miss Marion Long, potatoes; John Doyle, shoes; Wm. F. Dalbey, clothing; Chas. W. Montgomery, shoes and clothing; Miss Ellen Kerrigan, shoes; C. B. Wyeth and friends, bicycle. (Mr. Wyeth also loaned us a bicycle for two months.)

A case of food and numerous gifts of clothing were left at the office without the name of the donor. Volunteer workers, also, have provided clothing and other supplies which have not been listed. For all these gifts we are grateful and we solicit more of the same kind for next winter.

Relief Through Personal Service—Social service prompts and directs all forms of relief, but it also specializes in different fields of service. For example:

(a) The garden committee, whose activities have been given above, not only has brought to these families the concrete help of the gardens, but has called forth the helpful co-operation of a large committee, besides securing gifts of money and lots and seeds required to do the work. Some of the families this aided have also shared with others and have assisted the committee in its work. The value of such co-operation far exceeds all material benefits; (b) the park committee, likewise, by pointing out the ugly spots and planning for city improvements, really devised ways and means for much of the relief work and greatly assisted in directing the distribution. Their work has only been started. Their service during the ensuing year will be of greatest importance; (c) the playground committee has already started movements which have brought relief to some while they have at the same time strengthened the playground association of the public schools. Personal service must plan and direct play and recreation if these activities function aright; (d) the housekeepers' committee began with study of our markets and foods, and from these to the homes where we have given aid the helpful information is taken. Then follows instruction and as this plan is followed up every home becomes a school in good housekeeping under the supervision of a hundred experienced teachers; (e) infant welfare, in these homes, presses upon these teachers and another committee is formed to study the baby scientifically with physicians and nurses to guide in the study and to help find remedies which mothers can use, another sort of school and a far-reaching work has opened. Our committee is in its first stages of work and yet has accomplished much for a score of sick babies and has helped to save more from falling sick. Much of the food and clothing listed above came for this committee's work; (f) industrial committee. The discovery in one of our homes of a home-made mat, such as our mothers made of rags, led to the formation of this committee. They have provided material for many such mats and found ready sale for the product, thus enabling one family to support itself by a valuable home-industry. Other lines of industry are coming to light in other needy homes, and again personal service is blessing the recipient and the workers. Our committee can use more material for mats—send to 61 East Church street; (g) the superintendent, assisted by eighty-five volunteer workers, has visited all the local cases given aid. Many cases, the sick in particular, have been seen frequently and have been given careful service. Three hundred and fifty-five cases have been given friendly counsel and direction who received no material aid.

Twenty-eight volunteers have given 363 hours office work; thirty-one volunteers have made 372 visits; carriages and automobiles have been available whenever needed. Three volunteers have had charge of the record files and have done nearly all the copying. Three interpreters have given good service.

The board of directors and a

bers have given much time and earnest service to the cause.

The newspapers have contributed much space and other service. Merchants, coal dealers and many others have rendered valuable aid. Four firms have donated stenographic service which proved a great help. To all we are grateful.

Relief through co-operation with other societies, institutions, and the city of Newark—Societies and churches—A score of clubs, fraternities, labor unions, and other organizations, besides nearly all the church of the city have to some extent joined with us. A number have given us the list of their beneficiaries and others will do so before October.

All Public Out-door Relief-giving Agencies of the city and county have also given us references to their lists. From these names a Confidential Exchange is being prepared for the coming winter. This exchange will be explained in our program for the ensuing year.

The Juvenile Court, the Health Department, Children's Home, City Hospital and Newark Sanitarium have been at our service constantly while City, Town and County Officials have given us their strong support.

The Physicians and Nurses have worked by our side in generous and sympathetic services. We have had a few cases requiring legal aid and this service has been freely given.

The association opened as an emergency relief society, but with the expectation of taking up the constructive work of Organized Charities when the stress had passed.

Out-door relief work is the first step on the road to independence. Some cities provide municipal work shops where the unemployed can engage in home industries for personal use and sale, thus meeting this demand.

We had to depend upon public works only, and placed our men at the disposal of the Public Service Board, City Supervision was provided and our men were placed at street cleaning. We also provided the men for "Clean-up-Week" and enabled the Department to do the week's work in three days at half the usual cost to the City. Our men scraped most of the streets twice over, besides cleaning many alleys, vacant lots and odd corners, and shoveled over 2000 loads of dirt into the city wagons for removal. We also turned the old gas plant into the beginning of a park and have projected other works for the city.

This work has cost the city only the supervision and teaming. The workmen have been paid from our treasury the sum of \$1512.20 for this labor. This is a direct, and, we are assured by Chief of the Department, a valuable contribution to the city welfare. It is worthy of recognition, moreover, that this money has been donated by the members of this Association and has not been appropriated by the city or been added to the burden of tax payers.

We organized at the worst possible time of the year, under the stress of the hardest year in a decade, and without a trained staff of workers. Notwithstanding these handicaps, we have made a record for large achievement and already have preparations well in hand for the ensuing year. Our program will be announced in the beginning of the Autumn campaign.

We thank all who have in any way helped in this work, and we invite the entire community to join us in the effort to make Newark a more prosperous city.

Respectfully submitted
WM. E. HOPKINS:

Dr. Hunt Discovers Method that Kills
Corns by Penetration. ONLY 10c.

That old corn, that stubborn corn, that soft corn, that sore corn, the corn that will come back, you can now get rid of it once and for all, for Dr. Hunt of Sidney, Ohio, has discovered the scientific principle that makes corns go easily and painlessly.

Dr. Hunt's New Corn Cure does its work by penetration. That is Nature's own way. Goes to the very root of the corn. Corn lifts out, root, body and branch in two days.

No paring. No dangerous caustic ingredients. No liquids to dry out. No bulky pads or greasy salves. Dr. Hunt's New Corn Cure comes in ready-to-apply plaster form. Trim plaster exactly to size of corn and place on the most stubborn case.

Your corn comes up at once. The soothing penetrating ingredient works without discomfort. In two days you have no corn. This is a doctor's discovery. The result of life time study.

And a box-full costs you only ten cents. Guaranteed or money refunded. Sold by all druggists and shoe dealers. Or, send ten cents in stamps to American Chemical Co., 220 E. 12th St., Cincinnati, O.

Hundreds of Pretty Dresses For The Children

In all sizes from two to fourteen years of age are in our showing ranging in price from 50c to \$8.50. The stock is larger at this time than at any other, and when you have seen these pretty dresses, you will want to select a number of them. Why bother making the dresses, it's so much cheaper to buy them ready-made. Just stop and figure the cost of the materials and trimmings and the time required to make a dress, then come in and see the

Children's Dresses at
75c, 98c, \$1.25 and \$1.50

Such pretty styles and materials in both white and colors, made with long waists. Some have little vest effects, others have wide bands up and down the waists, while others have wide belts, pleated skirts, large pockets, on belt or skirt. Such a variety of styles in percales and ginghams in plain colors, stripes, checks and fancy plaids with trimmings in contrasting colors. All sizes from 2 to 14 years are shown at 75c, 98c, \$1.25 and \$1.50 each.

W. H. Mazey Company

Wish you'd step in here for a few minutes tomorrow—we'd like to show you a shoe that gives new life to your step—gives you back that sprightly springy step of the days when walking was a pleasure. It's the famous

Dr. A. Reed Cushion Shoe

and we'll guarantee that you'll be delighted with it. For it has a soft cushion insole that supports the arch of your foot, fills the hollows of the sole so that you walk on your whole foot instead of half of it—it's just like walking on air. No other shoe can possibly be so easy, so restful, so delightful to wear. And you can have your choice of many new styles and leathers at a reasonable price. We'll look for you tomorrow.

REPULSED ATTEMPT OF GERMAN WARSHIPS TO LAND TROOPS AT WINDAU.

One Torpedo Boat Blown Up by Mine—Official Report Issued From Petrograd.

[ASSOCIATED PRESS TELEGRAM] Petrograd (via London), July 1.—An attempt by German warships to bombard the port of Windau, Courland, and land troops, was repulsed by the Russians, according to an official statement issued last night at headquarters of the general staff. The communication follows:

"A squadron of German ships, consisting of one patrolling cruiser, four light cruisers, and many torpedo boats, bombarded Windau and attempted to make a landing on the coast but was repulsed. One of the hostile torpedo boats was blown up by a mine. Our torpedo boats engaged the enemy's cruisers. Other Russian torpedo boats protecting these operations from the north, compelled the enemy to retire.

"There has been a lull in the Shavli region, on the Nieman and Naraw fronts and on the left bank of the Vistula.

"The enemy offensive between the Viegpr and the Bug, on the Zamoscie-Sokolka front continues.

"On the western Bug and on the Gniela Lipa, on the 28th and 29th, we successfully repelled enemy attacks.

"Noticing the enemy crossing the Diester near Halicz, we took the offensive and drove him back, making hundreds of prisoners."

BRITISH AVIATOR DESTROYED GERMAN BY CLEVER RUSE

[ASSOCIATED PRESS TELEGRAM] Paris, July 1.—A ruse by which he destroyed a German aeroplane, near Ypres, is described by Mark Helson, a British aviator, in the Journal. The battle took place nearly 6500 feet in the air.

"When the enemy machine sighted me, it immediately took to flight," said Helson. "I dashed off in pursuit. After about 10 minutes' rapid flight, I came up with him and flew above him. The duel began at once.

"After fighting for sometime, without result, I adopted a stratagem which I have always found successful and let my aeroplane dive almost perpendicularly. The German aviator, believing I had fallen, also descended in a gliding flight. I then sighted my machine suddenly and shot above him at a distance of about 150 feet. Then we resumed the duel. One of my shots hit the gasoline tank of the aeroplane and the machine burst into flames, crashing to the earth. The pilot and observer both were killed."

DEAN PRICE

LAYS BLAME FOR HIS TROUBLE UPON PRESIDENT THOMPSON OF O. S. U.

In a Statement He Says He Was Misrepresented to Trustees Who Acted in Good Faith.

Columbus, July 1.—"The board of trustees has but one official means of getting its impressions and forming its judgments of the faculty, and that is through the president of the university, and the secretary of the board. When a member of the faculty is misrepresented to the board there is no recourse and no protection. Without doubt the board of trustees acted in good faith. In view of these facts, how can President Thompson exonerate himself from the responsibility for the action of the board of trustees in my case?"

This is the meat of a statement issued by Homer C. Price, who retired as dean of the College of Agriculture at the State university, Wednesday midnight. He says in short that, because he was unable to make personal pleas to the board of trustees in cases of questions which arose regarding his administration of affairs in the "Ag" college, and because these differences were reported to the board by Dr. Thompson, president of the university, and Secretary Steeb, showing only their side of the matter, that the trustees took action against him.

He says that subordinates of his in his college were encouraged by the president to work independent of his direction, and that when the delegation of Ohio farmers appeared before the trustees to demand the reason why Dean Price was being removed, they were told it was because of "friction," the nature of which was not defined to them. "The causes of friction," says Dean Price, "have been due to a misinformed board which has been prejudiced by complaints that have been carried to them against me persistently and consistently."

Concluding his statement Dean Price has the following to say: "I am going to my farm in Licking county and I welcome the opportunity to devote my entire time to my farming interests and as a practicing farmer I believe that I can render greater service to Ohio agriculture than I could if I had accepted President Thompson's request to remain in the faculty.

TWO ARE CHARGED WITH THEFT OF HARRIS' CHICKENS

Formal charges were filed Wednesday, in Mayor Bigbee's court, against Walter Spickler and Earl Rouse, arrested Wednesday morning for investigation, when police officers found two chickens imprisoned in a barrel in a camp along the creek bottoms. The chickens were identified by Edward Harris of East Newark, who filed the affidavit charging Rouse and Spickler with the theft of the birds. The two defendants told the police that they secured the birds from an East Newark man. The pleaded not guilty when arraigned on the charge, and the hearing was set for Thursday morning. Bond was fixed at \$300 in each case.

Three loiterers, three held for investigation, and three drunk completed the police court list.

SPAIN'S PREMIER SAY NEUTRALITY IS NOT MENACED

[ASSOCIATED PRESS TELEGRAM] Madrid, June 30.—Via Paris, July 1.—Discussing war and internal conditions in Spain, Premier Dato said today that there was no foundation for the allegation that the Spanish government favors the cause of the quadruple entente. He declared Spain favors neither side and is acting as fairly as it can.

Asserting that the constitution would not be suspended, the premier said: "Let us live united, having in view only the defense of the country. That is the principle we will maintain with firmness."
